New Manila International Airport (NMIA)
Updates as of November 2025

Building Stronger Communities:
SMAI Boosts Livelihood Efforts in Bulakan

Local Hiring

Elite Marine Construction Corporation (EMCC) successfully completed a series of **Local Recruitment Activities** (LRA) for the New Manila International Airport Project from September to November 2025 in collaboration with SMAI and Public Employment Service Office (PESO) of Bulakan, Bulacan. This initiative created employment opportunities for skilled local applicants, particularly for roles such as straight truck drivers and articulated dump truck (ADT) operators. Out of 45 applicants who were screened, 22 were hired in the airport project and the rest are processing their pre-employment requirements.

Airport Toll Road

As part of the Project, an Airport Toll Road (ATR) will be built to connect NMIA to the North Luzon Expressway (NLEX), providing seamless travel to and from the airport. The ATR component is part of Republic Act 11506, which grants SMAI the franchise for NMIA through a public-private partnership with the national government.

To prepare for implementation and ensure impacts are identified and mitigated, SMAI is developing the following:

- Environment and Social Impact Assessment (ESIA);
- Project-Induced In-Migration study (PIIM);
- Traffic Impact Assessment (TIA);
- Resettlement Action Plan (RAP); and
- Livelihood Restoration Plan (LRP).

A **Town Hall** consultation meeting was held on November 18, facilitated by the local government unit of Marilao. During this meeting, the Project and Municipal Mayor Atty. Jem Sy addressed the residents' concerns regarding the Project.

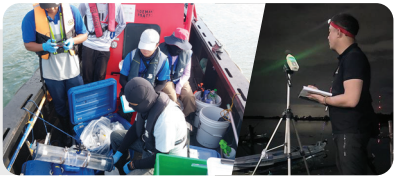
Environment & Sustainability Development

Compliance

- SMAI participated as one of the judges in the inspection and awarding ceremony of the **Gawad Taga-Ilog Program** headed by DENR-EMB Region 3.
- Attended the quarterly meeting for the **Adopt-a-Waterbody** program, where SMAI received a Certificate of Recognition from DENR-EMB Region 3 for being an active donor-partner in the initiative.

Environmental Monitoring

As part of SMAI's commitment to environmental stewardship, the following monitoring activities are regularly conducted:



- Water quality monitoring (Manila Bay and Brgy. Ubihan)
- Groundwater sampling (Brgys. Taliptip and Bambang in Bulakan; and Brgy. Salambao in Obando)
- Noise and quarterly ambient air quality monitoring (Bulakan, Marilao, Meycauayan, Obando and Malolos)

Kumusta? Community Engagements

SMAI conducted a **capacity-building session with the Community Advisory Council** of the Bulakan Local Government Unit, focusing on assessing and strengthening existing and proposed livelihood programs. The activity aimed to identify areas for improvement and explore opportunities for strategic collaboration between the council and SMAI, with the goal of enhancing the effectiveness and long-term sustainability of local livelihood initiatives.

SMAI engaged with 17 barangays in Bulacan, and the municipal government unit of Marilao to discuss their concerns and distribute information bulletins containing important updates about the Airport development.

Barangays	Bulakan	San Jose, Sta. Ana, Bagumbayan, Perez, Sta. Ines, San Nicolas, Taliptip, Balubad, Bambang, Matungao, Tibig, Pitpitan, Maysantol, San Francisco
	Malolos	Namayan, Babatnin, Caliligawan
LGU	Marilao	

Livelihood Restoration

- SMAI conducted a **Job Readiness and Pre-Employment Learning Session** at the SMAI Livelihood Center for six (6) Project-Affected-Persons (PAPs) hired by Sentro88 Foods Inc. Three (3) participants will serve as kitchen helpers, while the rest will be assigned as food servers.

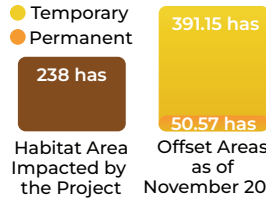
- 2,000 kg of colored round rags, sewn by eight (8) PAPs, were delivered to San Miguel Yamamura Packaging Corporation (SMYPC).

- Eight (8) PAP boatmen have formally signed their engagement with SMAI and are actively providing boat services to employees. Additionally, all 8 have successfully opened individual savings accounts with the Bank of Commerce.

- The **Annual Physical Examination** (APE) was conducted for individuals employed under the Biodiversity Management Program (BMP). Thirty-three (33) out of the 74 workers who underwent APE are economically affected PAPs.

Biodiversity Management

Progress of the Offset Site Development



Habitat Area Impacted by the Project

Offset Areas as of November 2025

Target Offset Area

**May be changed depending on the performance of created sites.*

SMAI participated in the **12th Meeting of Partners (MOP12) of the East Asian–Australasian Flyway Partnership (EAAFP)**, held in Cebu from November 12–16, 2025, emphasizing the growing role of the private sector in advancing conservation through science-based initiatives.

Airport Development

Delivery of sand to the airport platform continues.

IMPORTANT REMINDER

As construction work continues, we remind the community to please not enter the airport platform area. Your safety is our top priority. Thank you for helping keep everyone safe!

December Look-ahead

Livelihood Restoration	• PAPs hired as kitchen helpers for Sentro88 will be onboarded at the SMAI Livelihood Center in Bulakan, raising the total number of PAPs deployed to 14.
Compliance	• Ten thousand pieces of Bokashi balls will be dispersed at the Meycauayan River at Brgy. Banga, Meycauayan, Bulacan on December 5 as part of SMAI's participation in the Adopt-A-Waterbody Program of DENR-EMB Region 3.
Environmental Monitoring	• Monthly ex-situ water quality monitoring, borehole drilling activity inspection and groundwater sampling
