BUILDING SKILLS, CREATING IMPACT: EMPOWERING PAPS FOR TOMORROW'S WORKFORCE

COMMUNITY DEVELOPMENT AND SUSTAINABILITY

Twenty-five (25) Project-Affected Persons (PAPs) who make up the first batch of welding scholars of San Miguel Aerocity Inc. (SMAI) undergo a two-month on-the-job-training (OJT) that could lead to full-time employment.

The scholars, fresh from a two-month technical-vocational training at the Stars and Rainbow Academy in Parañaque City, were deployed at the Seatrium Subic Shipyard in Subic, Zambales following their completion of three Level II National Certifications (NCs) which include Shielded Metal Arc Welding (SMAW), Gas Metal Arc Welding (GMAW) and Flux-Cored Arc Welding (FCAW) from the Technical Education and Skills Development Authority (TESDA).

Ruel Bernabe, Public Employment Service (PESO) Office Manager of the Municipality of Bulakan, congratulated SMAI for preparing the PAPs for employment, and the graduates for completing their formal training.

The welding scholarship is part of SMAI's **Construction Workforce Development Program**—an initiative aimed at equipping project-affected families with skills that lead to sustainable employment opportunities, supporting SMAI's ongoing Livelihood Restoration Program.

The **Kitchen-to-Platform Program** was launched on May 8 at the SMAI Livelihood Center in Bulakan. Ten (10) PAPs completed a training under Sentro88 as cooks and food servers at the canteen at the San Miguel head office. Upon completion, they were assigned to help prepare and serve meals to the workers at the Airport land platform.

Seven (7) PAPs who passed individual assessment for garment production went on a tour at Solido Sportswear factory in San Jose Del Monte City, Bulacan as part of their orientation prior to the start of the collaboration.

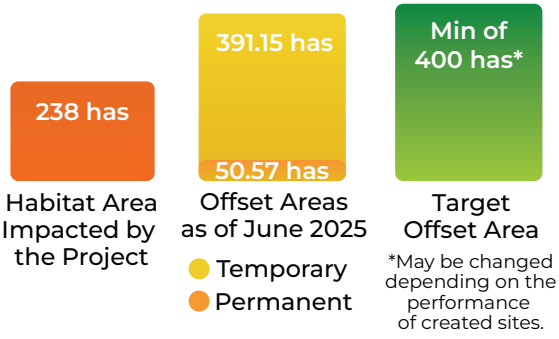
Seven of the 13 workers who onboarded as articulated dump truck drivers, first aider, boat crew and environmental monitoring associates were sourced in partnership with the PESO of Bulakan.

AIRPORT DEVELOPMENT

- Delivery of sand to the airport platform continues.
- Pile driving activities are ongoing.

BIODIVERSITY MANAGEMENT

Progress of Offset Site Development



Habitat Area Impacted by the Project

Offset Areas as of June 2025
- Temporary
- Permanent

Target Offset Area

*May be changed depending on the performance of created sites.

Continuous repair, maintenance, and monitoring of the offset sites in Macabebe, Pampanga, and Hagonoy in Bulacan.

On April 23, SMAI participated in the first King's Day Forum organized by the Embassy of the Kingdom Netherlands. With the theme "Sustainable Water Infrastructure: Building with Nature for a Climate-resilient Future," SMAI presented its Biodiversity Offset Program as a case study on responsible infrastructure development.

ENVIRONMENT & SUSTAINABILITY DEVELOPMENT

SUSTAINABILITY

SMAI's Environmental and Sustainability Team, with its contractor partner Geotechnics Philippines, conducted disclosure activities in April regarding the installation of groundwater monitoring wells through borehole drilling. Among the attendees were barangay officials local units and residents of Barangays Bambang and Taliptip in Bulakan and Brgy. Salambao in Obando.

Mobilization for the borehole installation started in May and drilling works will be conducted from July to August 2025. The groundwater wells will be used for monthly water quality monitoring. This will not affect existing water sources.

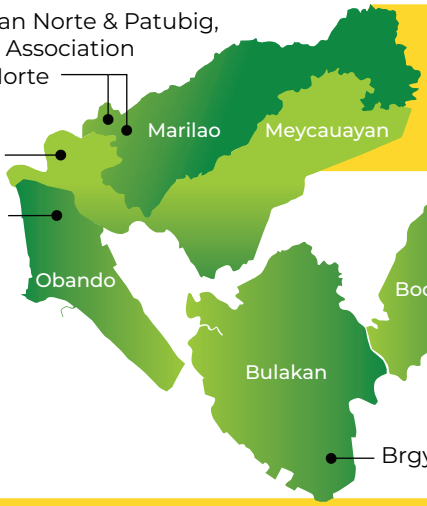
As part of SMAI's commitment to environmental stewardship, the following monitoring activities are regularly conducted in the following areas:

- Air and noise quality monitoring (Bulakan, Marilao, Malolos and Obando)
- Water quality monitoring (Manila Bay and Ubihan)

COMPLIANCE

SMAI joined the Philippine Earth Day Clean-up initiated by the Bulacan Provincial Environment and Natural Resources Office (PENRO) in April, attended the Q2 2025 Adopt-a-Waterbody Meeting and Update, Gawad Taga-Ilog: Search for the Most Improved Estero in Central Luzon – Roadshow in Meycauayan, and the 2nd Quarter Solid Waste Management Board Meeting in Bulakan.

AIRPORT TOLL ROAD



Coordination and discussion about RAP were conducted in the following areas:

SMAI intends to build an airport toll road (ATR) to facilitate access to NMIA. As an initial activity, SMAI, as assisted by its consultant GHD, is conducting an Environmental & Social Impact Assessment and developing a Resettlement Action Plan (RAP) and Livelihood Restoration Program for potentially affected communities.

Kumusta? COMMUNITY ENGAGEMENTS

The Project engages with communities to ensure open and continuous communication.

Municipalities:	3 - Obando, Malolos, Bulakan
Barangays:	7 - Salambao, Namayan, Pamarawan, Bambang, Tawiran, Ubihan, and Taliptip
Local Groups:	1 - Fisherfolk Association of San Nicolas, Bulakan
Academe:	12 - Bulacan State University, BSU Meneses Campus, Taliptip National High School, Taliptip Elementary School, Jose L. Perez Memorial School, Bambang Elementary School, Gen. Gregorio del Pilar Integrated School, Doña Candelaria Meneses Duque National High School, Pitpitan Elementary School, San Francisco Xavier High School, Tabang Elementary School, Marcelo H. del Pilar Memorial School

Medicines were distributed in Barangays Lolomboy and Duhat, Bocaue, Bulacan on April 7.

Participated in the 2025 Brigada Eskwela at Bambang Elementary School and Taliptip Elementary School in June.

SMAI met with Bulacan State University (BSU) officials to discuss recruitment plans for an upcoming job fair open to BSU alumni and new graduates. SMAI, along with other San Miguel Corporation business units, will set up a recruitment booth at the Meneses campus to offer employment opportunities to Bulakeños.
