MONTHLY UPDATES

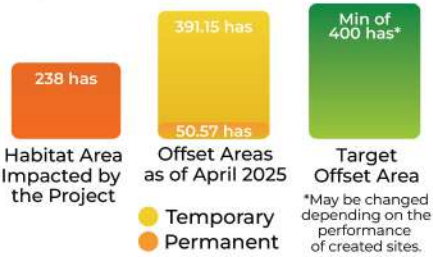
New Manila International Airport Updates for Bulakan LGU as of April 2025

Building Skills, Creating Impact:

Empowering PAPs for Tomorrow's Workforce

Biodiversity Management

Progress of Offset Site Development



Continuous construction and monitoring of the offset sites in Consuelo, Macabebe, Pampanga, and Hagonoy in Bulacan.

The Nursery maintained a total of 22,762 mangrove seedlings by the end of 2024.

Community Development & Sustainability

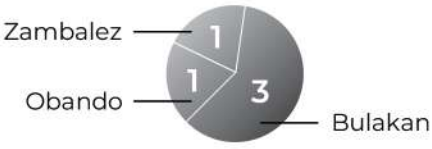
Ten (10) Project-Affected Persons (PAPs) completed an internship at Sentro88 Foods as they prepare to serve daily meals to land platform workers.

Twenty-five (25) PAP scholars completed a welding training and assessment in technical-vocational institute Stars and Rainbow Academy, earning them three TESDA national certifications. Following a graduation ceremony on April 28, the scholars have been deployed to Seatrium Subic Shipyard for a two-month on-the-job training.

In collaboration with the Bulakan Public Employment Services Office (PESO), SMAI partner Likas Yaman Service Corporation interviewed eight local candidates for employment as boat crew and articulated dump truck drivers at the land platform.

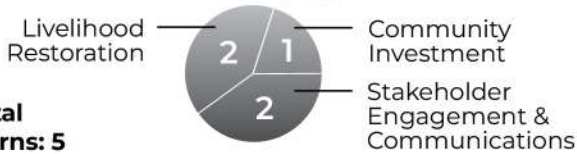
Issue Management and Grievance Redress

Concerns by Location



Total Concerns: 5

Concerns by Type



Kumusta? Community Engagements

To maintain consistent communication with our partners, the Project engaged with these municipalities:

Local Groups:	1 - Fisherfolk Association of San Nicolas, Bulakan
Academe:	11 - Bulacan State University, BSU Meneses Campus, Taliptip National High School, Taliptip Elementary School, Jose L. Perez Memorial School, Bambang Elementary School, Gen. Gregorio del Pilar Integrated School, Doña Candelaria Meneses Duque National High School, Pitpitan Elementary School, San Francisco Xavier High School, Tabang Elementary School, Marcelo H. del Pilar Memorial School

Medicines were distributed in Barangays Lolomboy and Duhat, Bocaue, Bulacan on April 7.

Borehole Drilling Activity for the Installation of Groundwater Monitoring Stations

SMAI's Environmental and Sustainability Team, with its contractor partner Geotechnics Philippines, conducted disclosure activities regarding the installation of groundwater monitoring wells through borehole drilling. Among the attendees were barangay local units and residents of Brgys. Bambang and Taliptip in Bulakan and Brgy. Salambao in Obando.

Activities related to borehole drilling will be conducted from April to June 2025. The groundwater wells will be used for monthly water quality monitoring. This will not affect existing water sources.

Environment & Sustainability Development

Compliance

Participated in the Philippine Earth Day Clean-up in Bulacan initiated by Bulacan Provincial Environment and Natural Resource Office (PENRO).

Environmental Monitoring

Noise monitoring activities were conducted in Bulakan, Malolos, Marilao and Obando.

Water quality monitoring sessions were held in Manila Bay, Brgys. Ubihan, Taliptip, and Bambang in Bulakan; & Brgy. Salambao in Obando.

Land Development

Delivery of sand to the airport platform continues.
Pile driving activities are ongoing.
